**WHAT YOU ENJOY AT P.B.E.**

I like P.B.E. for many reasons, but the two that stand out are the fact that P.B.E. takes care of their employees better than anyone else out there, and the superior shipping percentages of P.B.E.'s order fill and their replenishment system must be the envy of this industry.

The spirit within the company. It's very family like, protective yet competitive.

P.B.E. is a great company to work for. They really try to look after their employees, and for me working at this branch, is like a family environment. We all try to look after one another here.
